Registration Deadline: October 4, 2017

Time: 8:30am - 5:00pm (One Hour For Lunch)

Program Content:

Detectives and investigators (Internal, Criminal, and/or Civil) are often called upon to investigate arrest-related and/or in-custody deaths that are often associated with electronic control devices (ECD), restraint methods, use of force, illicit drugs, prescription drugs, synthetic drugs, excited delirium, and/or other agitated chaotic event™

Topics:

- Investigating arrest-related deaths: A blueprint
- Investigating sudden, in-custody deaths
- Investigating ECD alleged excessive use-of-force complaints
- Investigating ECD associated deaths
- Investigating restraint associated deaths
- Investigating excited delirium associated deaths
- National use-of-force standards and how they are applied to use-of-force events
- Americans with Disabilities Act and its application to arrested individuals
- Manufacturer product warnings, training, etc. and how they are applied to use-of-force events (including death events)
- Manufacturer lesson plans and how they are used by the agency
- Agency lesson plans and how they are used in use-of-force events, including death events
- Agency policy and procedures and how they can be used against the agency
- Four categorical causes of excited delirium
- Excited Delirium events: Best practices.
- Agitated Chaotic Events™: causes, best practices, and outcomes
- Contemporary sudden death theories (e.g., SUDEP, synthetic drugs, ECDs, restraint methods, etc.)
- ECD Models (e.g., TASER®, Stinger, Karbon Arms, NOVA)
- The importance of event timelines (especially in ECD-associated deaths)
- Understanding ECD Firing Records, Time Stamps, and their discrepancies
- ECD evidence collection do's and don'ts
- ECD cartridge, wire, probe, and trace evidence analysis
- Plus much more.

Tuition:

\$495 per officer. Pre-payment required. Credit cards, checks and purchase orders accepted. Participants are responsible for their transportation, lodging, and food cost.

Make check or purchase order payable to:
